

TECHNICAL CAPABILITIES PROGRAM (TCP) SELF STUDY LEARNING ACTIVITY'S IN SUPPORT OF NEEDED STSM/A COMPETENCIES

Welcome. The purpose of these pages is to enhance the support services provided by EM-13. We have provided a number of updated resources here to help you meet the qualification requirements of the Senior Technical Safety Manager/Advisor (STSM/A) program. To use this feature, please complete the following

1. With your web browser open, click on the blue hyper-link to go to the applicable STSM/A resource.
 - a. [General Technical Base Qualification Standard](#)
 - b. [Senior Technical Safety Managers Qualification Standard](#)
 - c. [Senior Technical Safety Managers Office Specific \(OFS\) Qualification Standard](#)
 - d. [Waste Management Technical Qualification Standard](#)
 - e. [Environmental Restoration Qualification Standard](#)
 - f. [Construction Management and Engineering Qualification Standard](#)
2. Select the applicable competency, click on the blue hyper-link to go the applicable resource or e-mail the applicable person.
3. To return to the files below, click the back button on your web browser.
4. As soon as the required competencies have been satisfied, please update your qualification record and forward the revised document to the Office of Training and Education (EM-13), and we will submit the record to the Federal Technical Capability Panel. If you have any questions, please call me on 6-4604 or Joni Boone on 6-7315.
5. You may also obtain technical support by telephone Perry Mason at (703) 289-3804; or by e-mail to pmason@ctacorp.com.

Michael Kleinrock
Acting Director
Office of Training and Education
